【 Smallest Edge AI Recognition Camera In World 】

VISION

Recognition Redefined By You

昱辰資訊有限公司
Digital System Integration

VISION

Smallest Edge
AI Recognition Camera

Features

All-in-One Smart Recognition Device：Easy Setup, Instant Use
Your Way with AI

Versatile AI Recognition：People, Objects, Plates, Thermal - Customizable to Needs.

Flexible Connectivity

WiFi and 4G Capable：Choose the Best Connection for Your Environment, Ensuring Uninterrupted Functionality.
Instant Notifications

AI recognition results linked with messaging apps for real-time user alerts, enabling prompt event and status checks.
Sleek and Easy to Install

Highly integrated, No Complex Peripherals, Easily Adaptable to use.

Function

Recognition Function Settings

Video Playback Recording

LINE Alert Notifications

- Efficient AI with Low Energy Usage
- Tiny-sized for easy use and installation
- Includes speaker and mic for on-site interaction
- Full HD video & images for high-definition visuals
- Built-in IR for clear night recognition
- 24/7 AI detection for constant field monitoring
- Real-time video recording and instant playback
- Selectable AI Models by users
- Recognition results through messaging apps

Vision Product Spec

CPU	Quad-Core ARM SoC & AI Accelerator	**Thermal**		768 FIR pixels
OS	Linux			Detection Angle : 55°
Edge AI	Selectable AI Models	**LED**		Red/Green/Blue
Lens	5-megapixel, Day/Night Imaging	**Power**		5V/3A, USB-C
	120° Wide-Angle Lens, No Distortion	**Install**		1/4-inch Locking Hole
Network	Ethernet/WiFi, 4G/LTE	**Size**		80 x 59 x 34mm
Spk/Mic	Mono 1W Spk / MEMS Mic
