

E.SUN “Carbon Accounting Account”

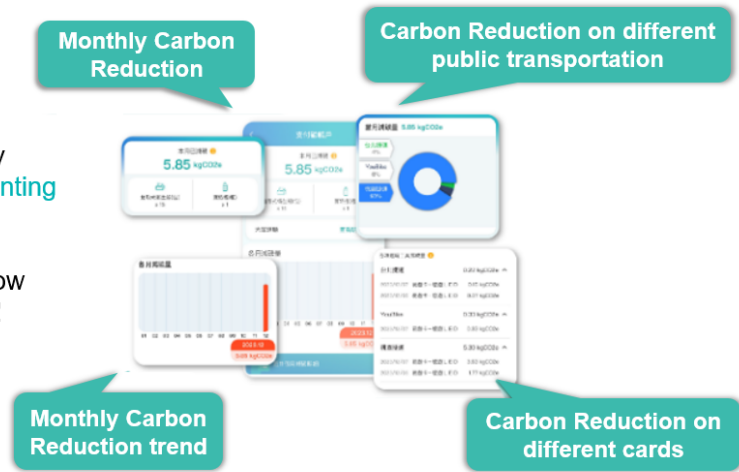

1. Introduction

E.SUN Bank is dedicated to promoting ESG development and encouraging cardholders to practice carbon reduction in their daily lives. E.SUN has pioneered the “Carbon Accounting Account” service in Taiwan market, becoming the first bank to collaborate with EasyCard Corporation to calculate the carbon reduction achieved by cardholders when using public transportation. E.SUN credit and debit card cardholders can open Carbon Accounting Account in the “Life” section of the E.SUN Wallet app to view information on their daily carbon reduction from using public transportation.

Reduce Carbon Emissions, Starting with E.SUN Credit Card

Everyone plays an important role to Sustainability
Open E.SUN Wallet, Activate Your Carbon Accounting Account

We calculate daily CO₂ reduction for you
Come and join E.SUN's sustainable team right now
Let's make an Impact with a low-carbon Lifestyle!

By opening the Carbon Accounting Account and authorizing access to all credit and debit cards with the additional EasyCard function, E.SUN’s cardholders can calculate the carbon reduction from using Taipei MRT (including Danhai Light Rail Transit, Ankeng Light Rail Transit, and New Taipei Circular Line), Taoyuan MRT, Taichung MRT, Kaohsiung MRT (including Kaohsiung Light Rail Transit), Taiwan Railways, High-Speed Rail, buses/coaches, and YouBike

Monthly Carbon Reduction
