

應用/服務概述 / Brief of the Application or Service

1. 保全(資料變更)/理賠聯盟鏈

本項服務具備「一站申請，多家受理」功能，減少客戶因理賠或資料變更需要須向不同保險公司個別提出申請奔波與不便。
Claim adjust/policies maintenance(data-updated) blockchain
This service comes with a "one-stop application, multiple acceptances" function, reducing the inconvenience for customers who would otherwise need to apply separately to different insurance companies for claims or changes in information.

2. 電子保單存證

保險公司交付電子保單予民眾，同時上傳至本會資料庫存證，作為未來民眾與保險公司有爭議之依據。
Electronic Insurance Policy Authentication

The insurance companies issue electronic policies to the public, simultaneously uploading them to our database for documentation. This serves as a basis for any future disputes between the public and the insurance companies.

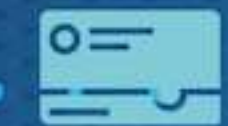

3. 保險理賠醫起通

民眾透過本項服務授權醫院將醫療收據及診斷證明書線上提供保險公司作為理賠申請文件，免除民眾醫院申請之不便及時間耗費。

Uni-Portal linking Insurance Claims to Medical Industry

Through this service, individuals grant hospitals the authority to submit medical receipts and diagnosis certificates online to insurance companies for claim purposes, eliminating the inconvenience and time-consuming process for individuals who would otherwise have to apply for claims through hospitals.

4. 保險存摺

保戶透過本項服務取得以其為要/被保險人之保單清單，除可瞭解基礎保障內容外，亦可做為民眾保單健檢的參考依據。
Insurance policies E-passbook

Through this service, policyholders can obtain a list of policies by themselves. This not only helps understanding the basic coverage details but also serves as a reference for individuals conducting a health check on their insurance policies.

規模 / Scope

1. 共享平台成員：25家產壽險公司

InsurTech Sharing Platform members :
25 insurance companies
