

The **WORLD'S LARGEST**

roadside Smart Parking System

Hong Kong

The project installed **12,300** Smart Parking **Meters** and nearly **20,000** roadside **parking spaces**, making it the largest Smart roadside Parking System in the world today.

It was completed in June 2022 after a **construction period of 18 months**.

Please refer to official **website** of the Hong Kong transport department.
