

## Uric Acid Analyzer

AcidEye 1

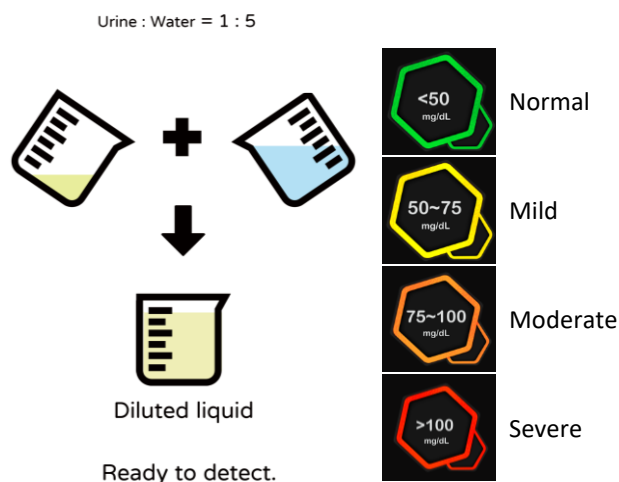

- UV optical detection
- Non-invasive
- No chemicals required
- Quick response (3-5 secs)
- Compact and portable
- Rechargeable (USB-C)
- 4-color code shows the concentration situation, easy to understand
- Detect anytime, anywhere (point-of-care)
- Bluetooth connects mobile app (optional)

- ◆ AcidEye is capable of increasing the detection frequency of urine uric acid.
- ◆ Bluetooth IoT technology realizes instant monitoring and collection of test results.
- ◆ Adjust diet or medication in real time to reduce the risk of gout.

## 《How to detect》

### Specifications

- Principle: Spectrophotometry
- Power: Lithium Battery 1500 mAh
- Light source: UV LED
- Wavelength: 290 nm
- Display: TFT-LCD
- Waterproof: IPX5
- Environment of use: + 10~ + 40°C, 30~85% RH
- Environment of storage: - 20~ + 60°C, 10~95% RH
