

**The Theme of GO SMART Pavilion - contributing to the sustainable city with digital empowerment.**

**Exhibitors.**

This year GO SMART invites following members to exhibit at GO SMART Pavilion: THINKTANK, ARK and RewardinMe. The THINKTANK provides A.I. ecosystem for smart cities solutions, including data analysis and system integration, especially cross-departmental coordination. The ARK is a Taiwanese team with the tech-core of 3D display technology patents, construction of image-based virtual environment, and detail display. RewardinMe offers a subscription model which can proactively engage customer through games and build meaningful database for running an amusing marketing.
