

**The Theme of GO SMART Pavilion –A Smart City with Open Source and Sharing**

This year GO SMART invites the following three members to exhibit at GO SMART Pavilion: The THINKTANK provides AIoT solutions, including product design, software and communication services. The ARK is a Taiwanese team with the tech-core of 3D display technology patents, targeting the needs of museums, artworks, and online museums. RewardinMe is an enterprise-level cloud survey service provider focusing more on the questionnaire execution and interprets data into meaningful insights.

The fifth term of 2023 GO SMART Award this year received a total of 43 submissions from 19 cities, 11 countries across four continents. Here are the five winners of 2023 GO SMART Award: New Taipei City Government, Indonesia, Kaohsiung City Government, and Taichung City Government. The other 9 finalists and 2022 GO SMART Award Winners will also be on display at the GO SMART exhibition.
