

2022 GO SMART Award Winners

2022 GO SMART Award (GSA), entering its 4th year. Over the past 3 terms, more than 120 outstanding projects have been submitted from more than 30 cities (e.g. Amsterdam, Da Nang, Gdynia, Moscow, Prague, Taipei, etc.). This year GSA attracted 42 projects from over 20 cities. Here are the 4 categories of criteria for GSA panelists' assessment: Cross-domain, Impact, Functionality and Innovation. This award aims to highlight the success of teamwork through collaboration, especially for teams that demonstrated diversity with stakeholders' engagement from different domains. GO SMART Award invites several international smart city experts to serve as judges. After diversified and professional review, projects were selected to the second-round evaluation of the online pitching.

This year GSA have 3 winners, and 2 special awards. The "I3 Systems and the City of Los Angeles" from the US; "Taipei Urban Intelligence Center" from Taiwan and "Qlue Smart City Project: Alam Sutera Intelligent Mobility System" from Indonesia are the winners. "New Taipei City Virtual Ward Platform" from New Taipei City Information Management Center gets the Promising City Project Special Award and "Remote Services for Assistive Technology Amidst the Pandemic" from New Taipei City Social Welfare Department wins Human Centric Special Award this year.
