The Theme of GO SMART Pavilion - contributing to the iterative generation of smart city development. Exhibitors.

This year GO SMART invites following members to exhibit at GO SMART Pavilion: UnaBiz, AQUIVIO, Grenoble Alpes, ARK. The UnaBiz provides IoT solutions, including product design, software and communication services. The AQUIVIO offers healthier and personalized drinks, reducing plastic waste by every pour. Grenoble Alpes is one of most innovative ecosystems in the world for digital technologies, new energy, and smart cities fields. The ARK is a Taiwanese team with the tech-core of 3D display technology patents, targeting the needs of museums, artworks, and online museums. In addition, SurveyCake is an enterprise-level cloud survey service that focuses more on the questionnaire execution and interprets data into meaningful insights.

	Company	Product / SolutionIntroduction	Contact
unabiz	UnaBiz	Utilities and Energy Monitoring solutions : (1)Smart Water Meter Solution (UnaMIU) (2)Smart Gas Meter Solution (NCU) UnaBiz solutions are low cost, easy-to-implement and use. No cables. Provide automated data logging meeting audit requirements.	Lily Hou lily/lily.hou@unabiz.com +886 926-933-751
AQUIVIO	AQUIVIO Co., Ltd.	AQUIVIO IOT Smart Beverage Dispensers offer healthier and personalized drinks and Alkaline Hydrogen Water, enabling consumer savings, additional vendor income and reducing plastic waste by every pour	Mark Chang markc@aquivio.com +886 936-921-007
Grenoble Alpes	Grenoble (UBIK Ltd.)	Grenoble Alpes is considered as French Silicon Valley and one of most innovative ecosystems in the world for digital technologies, new energy, clean Tech, smart Health and smart cities fields.	Meiling Tsai meiling.tsai@ubik.com.tw +886 937-576-016

ARK 720 Solution logo [QR code]	ARK	1. Ark is a Taiwanese team with the tech-core of 3D display technology patents 2. Exclusive development of unique multi-lens matrix modeling equipment 3. Combination of 3D calculation technology and low-delay web 3D 4. Target the needs of museums, artworks, and online museums 5. Three leading advantages of the market:The speed of matrix scanning imaging is fast,The best detail texture shownThe 3D matter could reveal the real color of the item with macro lens.
