

AccuSave AI™

IS HVAC ENERGY SAVING BEST SOLUTION

Hermes Technology (ASML related)

Energy Savings Rate 26.87 %

The energy management system in this case mainly imports AccuSave AI, which uses artificial intelligence to actively learn and analyze each chiller and its ancillary equipment, and perform energy-saving regulation. For example: when the outside air temperature is low, moderately increase the ice water temperature and reduce the load of pumps and cooling towers.

Taipower HQ LEED Platinum

Energy Savings Rate 33.9 %

The energy management system in this case mainly imports AccuSave AI, which actively learns and analyzes each device through artificial intelligence, intelligently adjusts the air-conditioning temperature according to the seasonal temperature, stabilizes the indoor temperature, and improves air-conditioning efficiency.

AI Control 100+ Chillers parameters, Improve maintaining and operation productivity
