

Empowering Sovereign AI

Taiwan AI Cloud delivers AI compute, operations, models, and resell services.

Build

AI Compute Foundry

- End-to-end AI infrastructure deployment (hardware + software)
- Taiwan's only CNCF*-certified, Kubernetes-based AI platform

Operate

AI Infrastructure Maintenance

- A turnkey operational stack integrated with BSS/OSS
- 8+ years of proven AI, cloud, and HPC system management

Train

AI Model Foundry

- Localized AI models with continuous optimization, fully compliant with AIEC*
- Enabling national enterprises to develop secure and sovereign AI solutions

Resell

AI Compute Resell Service

- Asia's first commercial AIHPC public cloud for industries
- Multi-Tenant AI Platform with Optimized GPU Resource Allocation

* Cloud Native Computing Foundation (CNCF)

* Artificial Intelligence Evaluation Center (AIEC)
