Industry Solution

Service Integration

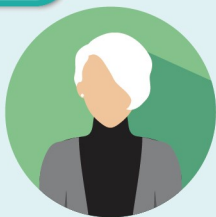

ENTERPRISE HEALTHCARE SYSTEM

Product Features

- ◆ Help companies to facilitate physical examinations and health care managers to provide employee care.
- ◆ Meet the requirements for the prevention of the top four occupational diseases.
- ◆ Assess employees' Health Risk through analyzing physical examination.
- ◆ Integrate medical records and surveys to help health care managers and occupational health care specialists providing best care for employees.

Solutions for

Business Owners

Companies that do not comply with labor regulations may be fined

- ✓ Guarding employees' health and company's CSR

Health Care Managers

Managing vast amounts of employees' health report is very time-consuming

- ✓ Providing systematized reporting, simplified management processes

Employees

Without being able to compare physical examination report with that of past years, no improvements can be made

- ✓ Individual can access to previous physical examination reports and check health trends
